Northwest Subcommittee

This was the final meeting of the Northwest subcommittee. All attendees were given a copy of the draft report and were asked to review it for corrections and changes. The committee asked that the development of the four named villages be addressed more in the report. They also wanted the report to reflect the committee's desire to see changes to the zoning ordinances so the code supports the new policy that this comprehensive plan update will provide. Changes to the draft report will be made by staff and distributed back to the committee for their review before the report is sent to the Steering Committee.
